MAGAZINE

# Submission Guidelines

## Theme

- Your work has to focus mainly on a STEM area including but not limited to engineering, mathematics, biology, physics, chemistry and computer science.
- If your work reflects more than one area or if you include it in 'Other STEM' you should explicit your area on the 'message' box of your submission.

## Word Count

- Your work should be longer than 500 words.
- There's no upper limit for words.
- You can include as many figures, diagrams and images as you want.

## Images and diagrams

- You can use any images or diagrams you see fit. There is no limit for the number of figures within each article.
- For every image in your article you should be able to give a .jpeg file OR a link to the image and, if applicable, the original source.

## File

- When submitting, your full article as you want to present it should be in a Google Docs, which will be linked in your submission form.
- This file should have the 'Share' configuration set as 'Anyone with the link can comment' .

## Language

- Your article should be written in English in its totality, apart from specific and properly justifiable expressions.

## Title

- Your title should be concise and clearly state the subject of your article.
- Your title should be no longer than 30 words.

## Abstract

- An abstract of a maximum of 250 words is necessary for publication.
- It should contain the core theme, subthemes and conclusions of your article.

## References

- It is mandatory to include a reference and further reading section in every article.
- Videos and books may just be cited by name and author.
- Scientific papers should be cited using APA 7<sup>th</sup> edition.
- Any webpage should be properly linked along with its name and date of access.

## AI use and plagiarism

- Your article may not be generated fully or in part by an AI.
- You may not use parts of totality of other works without referencing them.
- Use of correctors and text guidance such as Grammarly™ is allowed.
